Subject: Acceptance of Amended Notice of Intention, Small Mining Operations, Perihelion Global, Inc., Saturday Night #1 & #2 Mine, S/003/076, Task ID# 2002, Box Elder County, Utah

Dear Mr. Villarreal:

Thank you for your amended Notice of Intention to Commence Small Mining Operations, received by the Division on September 26, 2007. The application for the revised 5-acre permit area, correcting the location description (subsection, section, township, range), estimated production, and correcting corporate contact and address information. The amended information is considered complete and no additional information is required at this time. The reclamation surety amount will not change as a result of this amendment. You may now commence with your amended plan as outlined. Enclosed is a copy of the approved replacement pages for your copy of the Notice.

Please be advised that you are bound by the same Operation and Reclamation Practices, as outlined in your original notice.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Program

4. Will any water, liquid chemicals, reagents, or other solutions be used, produced or discharged as part of the mining or milling process?
Yes ☐ No ☐ If yes, please describe (add extra pages if needed) _____
5. Provide a brief description of the proposed mining operation and onsite processing facilities (add extra pages if necessary). Surface Mining and Removal of
Tailings - GRAB samples - Drilling Samples - shovel and
Rocket for Assays
6. ☒ New Road(s): Length 7,000 (ft) Width 10 (ft)
7. ☐ Improved Road(s): Provide a description of the improvements that need to be made to existing roads to access the site, including the Length _____ (ft) and Width _____ (ft) of improvements.
8. Total project surface acreage to be disturbed: _____ (acres) PLEASE SPECIFY EXACT ACREAGE - (this will be used to determine surety bond amount - see #VI).
9. Proposed startup date of project (month, year) _____
10. Proposed completion date of project, if known (month, year) _____

IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the Permittee / Operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining. Please refer to The Practical Guide to Reclamation in Utah, available at www.ogm.utah.gov.

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
